Product description

The new MAG integrates work light and flashlight functionality in one and is now reintroduced in a new and modern design.

Using the latest high-performance LED technology, this enables the MAG work light to provide two times more light output than the first generation MAG does.

With three strong built-in magnetic holders and the two retractable suspension hooks, the MAG work light enable complete flexibility.

Moreover, the lamp head allows tilting up to 180 degrees.

The redesigned MAG work light offers great value in every working operation due to its outstanding light output in both spotlight and mainlight and it is rechargeable over USB.

Bottom line: MAG is made for efficient workshop operation.

// The design of the MAG is unique and covered by EU design patent RCD No 2954123.

Specifications

- Light source 7 xSMD LEDs / Spot: High power LED
- Illuminance 250 lux@0.5m / Spot: 500 lux@0.5m
- LUMINOUS FLUX 120 lm / Spot: 50 lm
- Operating time 4h / Spot: 4h
- Charging time 4h
- Operating voltage 100-240V / 50-60 Hz
- Battery 3.7V / 1200 mAh Li-ion
- INGRESS PROTECTION IP20
- Net weight 245g
- Temperature -10° to +40°C
- Dimensions 270 x 62 x 41 mm
