| Number | **03.5408** |

## Product description

**The most powerful UV-light on the market**

UV-FORM is a new rechargeable LED work light with powerful 1.5W UV-light on the top. UV-FORM is also fitted with the new COB LED strip light providing a unique powerful and completely uniform illumination. Basically, you get a universal indispensable work light and UV detection in one, and at the same time it replaces special UV detection lights.

The ultraviolet light is intended for leak detection in air-conditioning systems by means of trace elements. Also useful for leak detection of larger, complex refrigeration/freezing appliances, process-cooling systems, heat pump systems etc.

UV-FORM’s flexible lamp head tilts up to 180 degrees. UV-FORM is supplied with a strong built-in magnet for easy positioning in the workspace and a turnable sturdy hook designed to fit the work belt.

UV-FORM is the most powerful UV-light on the market.

The design of UV-FORM is unique and covered by EU design patent RCD No 2373282.

**Technical specifications**

- COB LED / High power UV-light in top
- 395 nm - Optimised for UV-detection
- 340 lux@0.5m
- 150 lumen
- 3h/3h operating time
- 3h charging time
- 3.7V/1600mAh Li-ion
- IP20
