Product description

Universal LED inspection hand lamp in a slim design with 200 lumen

The STICK LITE S is ideal for those who value good, compact design combined with uncomplicated functionality. Regardless if it is for everyday use or a tough job, the portable hand light delivers as promised: optimal brightness and handy design at a fair price.

Compared to the first generation, STICK LITE S has been upgraded with the highly efficient COB LED technology, now providing up to 200 lumen. It has also been upgraded with a stepless dimmer function in the range of 10 % to 100 % that enables you to easily adjust the light output to the work task.

Born rechargeable, the powerful handlamp with torch light function enables convenient and precise work. The STICK LITE S is thus recommended for everyone who needs universal, sturdy and handheld work lights. The practical built-in magnet allows you to benefit from the bright light of the handlamp and still having both hands free for work.

The ultra-thin design with round shapes makes STICK LITE S comfortable to carry in the pocket ready at hand for the daily inspection tasks. The slim designed handlamp is also optimized in weight to provide maximum working comfort.

Why go with STICK LITE S

- Powerfull 200 lumen handlamp with top light function
- Ultra lightweight (52g) for maximum working comfort
- Ultra slim (Only 13 mm) for maximum flexibility
