Product description

With its extremely compact and unique design, the NOVA MINI is a hand-held floodlight that is the ultimate “must-have” for professionals in all industries.

// We are overwhelmed by the success of the NOVA MINI! First batch have already been sold out. We will take orders and start shipping again end of January 2020 //

Featuring the latest LED technology, NOVA MINI is incredibly powerful and provides up to 1000 lumen – which is absolutely unique for such a small lamp. NOVA MINI is supplied with a practical on/off button on the side that is also acting as a light control. Adjust the light output with the stepless dimmer function in the range of 10% to 100%.

As part of the popular NOVA family, NOVA MINI is based on all the same unique and wellknown features that the NOVA series is known for. With its compact dimensions of only 104x38x96 mm, it is more than twenty times smaller than the NOVA 10K and fits perfectly into your pocket.

The lamp is supplied with a special, patented SMART GRIP 4-in-1 system that integrates several multi-functions in the same unit. The ring is based on the functionality you know from e.g. mobile phones which makes it easier and more convenient to keep the lamp in your hand for a long time. It relieves the muscles and increases ergonomics.

The clip is designed to fit the work belt and carry the lamp the entire day, and when both hands are needed for a task, the strong built-in magnet can be used for flexible positioning. Furthermore, the SMART GRIP can be used as a stand on any available surface.

A charge indicator on the side of the lamp keeps you informed about the battery level.
