Product description

version Profi +

Very useful and handy multi-purpose tester designed for one-handed operation

electrical testing 6 - 24V in cars, trucks and motorcycles
LED light illuminates the work area
easier to solve problems by switching the polarity
very useful for measuring the ignition, fuel injection and other pulsed power systems
Read the measured voltage backlit display
Built-in cable continuity tester with optical signal
measuring the frequency to 8000 Hz
6 foot cord allows for comfortable operation
polarity tester for testing vehicles or trailers
polarity reversal adapter connected to the battery
device connected to the battery or cigarette lighter
A special tip for measurements on deep plugs
6 adjustable degrees threshold voltage of 0.5 V - 1.0 V - 2.0 V - 5.0 V - 10.0 V - 48 V
acoustic signal when the set voltage
