Product description

• Car makers think they are smarters and come up with special tools that will only be available on the service network. But they are wrong !!!

• Sockets with a new hexagonal profile, like the Torx, but some kind of frame and measured in millimeters,

• 3/8 "input,
• Chrome vanadium steel,
• length 38 mm,
• On a steel rail,
• They allow you to work with very high torque,
• have 6 - grooves with edges with a very large adhesion of the screw cap,

Application in cars: Opel, Renault, Nissan,
fastening the flywheel in Renault Koleos,
fixing the towbar at Renault Koleos,
