Product description

- Detects currents from 0V to 24V DC
- Activate the components with positive or negative current thanks to its 6m cable
- Determine the polarity and circuit circumstance (short-open / green or red LED)
- Short cicuit protection
- Test the continuity of the circuit
- Locate missing cylinders
- Measures high tension frequency of ignition system
- Audible warning
- Digital LCD display
- Integrated LED light, ideal for work in dark places
- Connects to the vehicle battery
- Ignition in kV
